## **REASONS FOR ALLOWANCE**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

**The following is an examiner's Amendment/Comments:**

Applicant's election of specie I, claims 1-3, 7-9 in the reply filed on 2/14/05 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Examiner pointed out the reasons why the withdrawn claims are not considered in the previous office action that species I, oxidizing the tantalum oxide at the temperature above crystallization of tantalum oxide, the specie II, oxidizing the tantalum oxide at the temperature below crystallization of tantalum oxide. Since applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse.

This application is in condition for allowance except for the presence of claims 4-6, 10-33 drawn to non-elected without traverse for the above reasons. Accordingly, claims 4-6, 10-33 have been cancelled.

Please cancel claims 4-6, 10-33.

Please replace the title of the invention with --a method of forming a coupling dielectric Ta<sub>2</sub>O<sub>5</sub> in a memory device--.

**The following is an examiner's statement of reasons for allowance:**

Claims 1-3, 7-9 are allowed because none of the prior art alone or in combination teaches or suggests the particular subset of the process steps in forming a coupling dielectric in a memory cell with by oxidizing the Ta<sub>2</sub>O<sub>5</sub> with rapid thermal process at a temperature above the crystallization temperature for Ta<sub>2</sub>O<sub>5</sub>, forming an cell nitride on the oxidized Ta<sub>2</sub>O<sub>5</sub>, and forming a wetgate oxide on the cell nitride.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
